

ATUL RAJESH PATEL

+91 79907 20637 | Email-atulrpatel007@gmail.com | X-@atulrpatel007

Motivated and detail-oriented B. Tech student specializing in Electronics and VLSI Engineering, with a strong foundation in digital logic, circuit design, and semiconductor fundamentals. Passionate about hardware design and embedded systems, with hands-on experience in Signal Processing, Arduino, and basic PCB design.

PROJECTS

FEBURARY
2025

LINE FOLLOWER ROBOT USING ARDUINO UNO (PID MODEL):

Designed and implemented a line-following robot using Arduino Uno, IR sensors, and DC motors with a PID (Proportional-Integral-Derivative) control algorithm.

FEBURARY
2025

LED PATTERN GENERATOR USING ARDUINO:

Designed a basic embedded system to create LED blink patterns using Arduino Uno.

MARCH 2024

THERMOELECTRIC GENERATOR (TEG)

Designed and built a thermoelectric generator system that converts heat energy into electrical energy using the Seebeck effect.

EDUCATION

AUGUST 2025

BACHELOR OF TECHNOLOGY (B. TECH)

BRANCH-ELECTRONICS AND VLSI ENGINEERING
SARDAR VALLABHBHAI NATIONAL INSTITUTE OF TECHNOLOGY, SURAT
CURRENT SEMISTER :3 (2ND YEAR STUDENT)
CURRENT CGPA: 8.26 [SEM-1: 8.85; SEM-2: 8.26]

MARCH 2024

CLASS XII – CBSE

GUJARAT PUBLIC SCHOOL, VADODARA
YEAR OF COMPLETION: 2024
PERCENTAGE: 89.8%

MARCH 2022

CLASS X – CBSE

AMBE SCHOOL CBSE, VADODARA
YEAR OF COMPLETION: 2022
PERCENTAGE: 86.8%

SKILLS

- Hardware Design: VHDL
- Embedded Systems: Arduino, Raspberry Pi (Beginner), C programming
- Software: MATLAB (Introductory), MS Excel, MS PowerPoint
- Programming Languages: C, Python (Basic), Java (Basic)
- Database: MySQL

LANGUAGES

- English – Professional working proficiency
- Hindi – Native / Bilingual proficiency
- Bhojpuri / Gujarati – Conversational

INTERESTS

- Electronics Design, VLSI Architecture, Embedded Systems, Circuit Debugging, Tech Blogging.
- Gaming Enthusiast, Gaming Technology, Hardware Exploration, System Optimization.
